

### From the Provincial's Desk

*My Dear Brothers, Sisters,  
Co-workers & Friends in  
Hospitality,*

The Church is known to be outstanding its commitment to the poor. This commitment, however, remains a challenge that calls for an ever more vigorous response from us, despite opposition from vested interests.

Every religious Institute, congregation or Order has been founded by its holy founder or Founderess who was a dreamer and a prophet who gave life to the enterprise. Looking ahead, their sons and daughters cannot deny themselves the hope of a future when religious life would be purer, truer and happier.

#### ..... Provincial's Message

.... Continuation from Page 1

This imposes a serious responsibility on us, religious. We need, therefore, to ask ourselves a few pertinent questions: What changes have taken place in our religious apostolic life since the time of the Founder or foundress? What difficulties we faced and what renewal have we realized in the individual members and in the community? Society? What progress or modification has been made in our relationship with the local church and locality?

A new threat demands a new response. India has made good start with the planned expansion of the National Security Guard and sophisticated technology. Today terrorism, anti-Christian movements, political instability, atheism etc. are much more active. The very young people become terrorists, due to absence of faith in God, lack of hope in Life, poverty, selfishness and so on. Humanity and human relationships, value of life are not at all considered.

Thank you all for the great services and contributions you have rendered through our Family of Hospitaller Order in the year 2008. Finally I wish you a graceful X-mas and a Prosperous Year 2009. Let us again work together in Hospitality as St. John of God did in the past for the upliftment of the poor and suffering in the society.

Fraternally, \_\_\_\_\_
